WAP ATTIX 8 is a new product - designed to improve mobility

With the brand new WAP ATTIX 8, WAP widens the Wet/Dry vacuum product range. The ATTIX 8 is the perfect solution for craftsmen and other professionals in **Woodworking**, **Drywall** and **Automotive** industries and much more...Bring the ATTIX 8 with you to remove every trace of dust and dirt. You will experience a power surplus - greater than one would expect from such a small, compact machine.

Silent operation

The low noise level of 59 dB(A) is a luxury feature for a comfortable working environment.

Cable hook & Accessory holder

Have everything in one place. It also allows a proper storage of the machine after use.

New container design

The slim design allows an easy transport. The container has no rips and no secret corners inside, so emptying is not a problem.

WAP ATTIX 8 HEPA Options

WAP HEPA filter systems meet the following standards:

ANSI	Z9.2-1979	EPS	560-OPTS-86-003
OSHA	1910.1001	MIL	51058 F
EPA	560-OPTS-86-002	DOE Nuclear Standard	NE F 3-43

HEPA standards also applicable for WAP Attix 12.

Push&Clean
Filter Cleaning System

ES E MOVE

um cleaner
n in the marketplace
ter needs cleaning.*

PET-fleece filter cartridge ▲
Washable and long lasting filter cartridge with high filtration rate for a clean air.

Push&Clean button* ▶
For cleaning the filter just close the fitting or the tube and press the button.

Audio Filter Alarm*

A high pitch alarm will notify the user when it is time to clean the filter.

Ergonomic and sturdy grip

The machine can be moved around in an easy and comfortable way - even with a filled container.

Round switch & auxiliary power outlet

The switch can be used easily even wearing gloves. It always indicates whether the machine is on or off. The automatic auxiliary power outlet* allows you to use electric tools.

SoftStart*

A gentle motor start-up keeps the starting current low and prevents voltage break-downs.

Power Regulator*

To adjust suction performance and to prevent the power tool from sticking to the work surface.

Superior suction performance

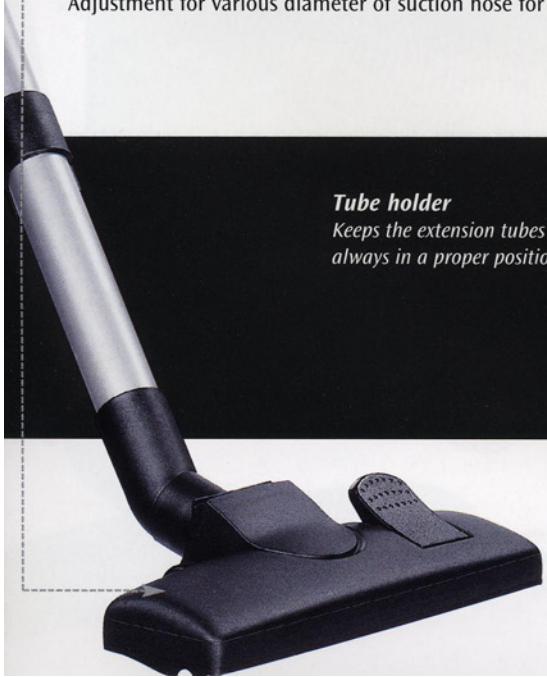

The power you need for a better cleaning result with less effort in a shorter time frame.

Hose Selection Feature*

Adjustment for various diameter of suction hose for optimum suction performance.

* Standard on ATTIX AS/E.

Tube holder ▶
Keeps the extension tubes always in a proper position.

Constant high suction performance due to:

Push&Clean

Filter Cleaning System

Maybe you have to deal with normal dirt, so you don't need a filter cleaning system. But if you are familiar with the dreaded work of cleaning clogged filter cartridges because of fine dust causing low suction performance, you will really appreciate the new Push&Clean filter cleaning system from WAP.

All you have to do to clean the filter is to close the fitting or the hose and press a button. Powerful air pulses will clean the filter gently, and you are back to work in no time, without removing the vacuum head.

The Push&Clean filter cleaning system:

- Keeps suction performance constantly high
- Extends the life of the filter and reduces your costs
- Saves you working time
- Improves the reliability of the machine
- World patented
- Great for continuous drywall applications

Push&Clean filter cleaning technology

The Push&Clean technology allows a fast and simple cleaning of the filter cartridge. Block the the air inlet fitting or the hose end, push the filter cleaning button, then the surrounding air enters the container passing through the filter cartridge in the opposite direction. The dirt is blasted off the filter and the suction performance is restored. A comfortable and powerful yet gentle way of cleaning the filter.

Push&Clean

Xtreme efficiency

WAP ATTIX 12 - WET/DRY XTREME SILENCE

*Superior suction power, silent operation and
new innovative features - why compromise*

The most silent worker in your company

Even when it does a hard job, you almost won't notice it. The WAP ATTIX 12 has been developed with many technical improvements and new design. Additionally it gives the most silent operation in the WAP range ever. If you then add superior suction performance, automatic filter cleaning, anti-static feature and many other features - you end up with a market leading Wet/Dry solution, perfect for your company - **bodyshop, rental store, manufacturing, clean room etc.** - in short WAP ATTIX 12.

Silent operation

The low noise level of 57 dB(A) is a luxury feature and is the quietest in the industry.

Cable hook, tube & accessory holder

Have everything in one place. It also allows a proper storage of the machine after use.

Xtra big wheels and castors

For good mobility even on different or uneven surfaces.

Application Specific Models Available

XtremeClean
Filter Cleaning System

Tool deposit

Whether it is your tool, accessories or other important things - you always have it to your hand.

Rubber cable

Sturdy quality that professionals rely on.

Just keep on working with automated filter cleaning:

WAP now offers the impressive filter cleaning system called XtremeClean. The name is characteristic for the cleaning level of this system: extremely efficient and simple to activate. This saves you time and money. **The best filter cleaning system that the market has ever seen.**

All you have to do is start the vacuum. The filter is cleaned automatically, so there is no need to interrupt your work to clean your filter. Concentrate on your main job, e.g. drilling, making slits or grinding and let the vacuum assist you in achieving a dustfree workplace - wherever you are.

Powerful air pulses clean the filter gently and:

- Keeps the suction performance constantly high
- Extends the life of the filter and reduce your costs
- Saves you working time
- Improves the reliability of the machine
- World Patented

XtremeClean filter cleaning technology

Advanced ingenuity allows automatic cleaning of the filter cartridge while vacuuming on full suction performance. The XtremeClean technology is based on a valve controlled solution, using the air flow to clean one half of the filter cartridge - while you still work with the other half of the filter cartridge. The valve allows the surrounding air to enter into the container, passing through the filter in the opposite direction. The dirt is blasted off the filter and the suction performance is restored.

* Standard on different variants.

Ergonomic and sturdy grip

The machine can be moved around in an easy and comfortable way - even with a filled container.

Round switch & auxiliary power outlet

The switch can be used easily even wearing gloves. It always indicates whether the machine is on or off. The automatic auxiliary power outlet* allows you to use electric tools.

SoftStart*

A gentle motor start-up keeps the starting current low and prevents voltage break downs.

Power Regulator*

To adjust suction performance and to prevent the power tool from sticking to the work surface.

AntiStatic feature

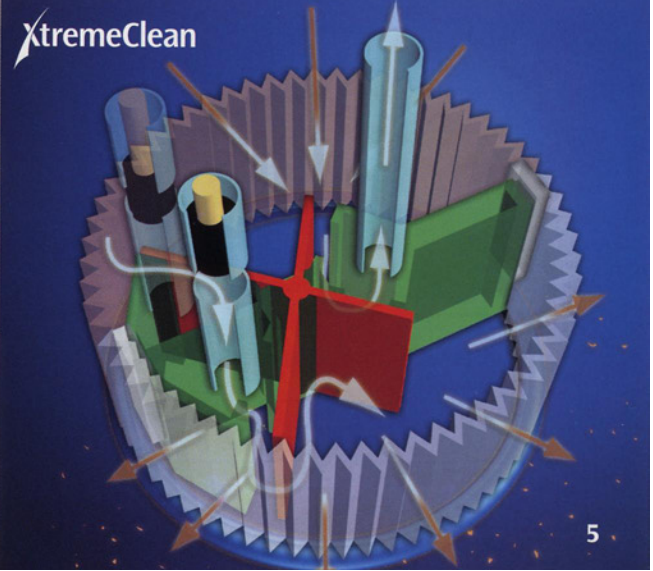

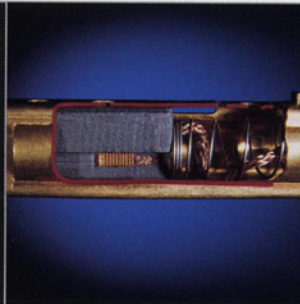

To prevent shocks and dirt caused by static charges.

Hose Selection Feature*

Adjustment for various diameter of suction hose for optimum suction performance.

Carbon brushes with "switch-off"-technology

It is often small details that prove the quality of WAP's vacs: If carbon brushes are worn out the motor will be switched off. It prevents damage on the rotor and allows changing the carbon brushes (both for WAP ATTIX 8 and 12).

ALTO OFFERS MORE DEDICATED SOLUTIONS...

In order to accommodate specific customer needs ALTO has developed a full range of accessories and accessory sets.

Wap

Accessories for WAP ATTIX 8 & 12

Filter bags

2-ply filter bag in sturdy quality and with high filtration rate. PU 5 pcs. The original ALTO quality.

WAP ATTIX 8	302 000 449
WAP ATTIX 12	302 000 527

Filter Cartridge

Filter cartridge made of washable PET-fleece with high filtration rate and long service life.

WAP ATTIX 8 & 12	302 000 490
WAP ATTIX 12 Xtreme Clean	302 000 751

Cloth filter insert "special"

Additional filtration stage with high level filtration efficiency. Best suitable for very fine dust even mixed with moisture (i.e., concrete slab). For those that work without filter bags. Made of needled felt, plastic coated.

WAP ATTIX 8	302 000 606
WAP ATTIX 12	302 000 525

Accessory net

Helps carrying different goods like accessories or small tools. Content is visible. Kit incl. screws.

WAP ATTIX 8	302 000 607
WAP ATTIX 12	302 000 524

Exhaust air collector

To collect the exhaust air and lead it out of the room. Ideal for 100% clean rooms. Can also be used to blow some dirt out of hard-to-reach places. Kit incl. screws.

WAP ATTIX 12	302 000 522
--------------	-------------

Handle, collapsible

Offers an extreme comfortable handling when the machine is transported. Kit incl. screws.

WAP ATTIX 12	302 000 523
--------------	-------------

For transportation of even more accessories, an accessory net is available and can be mounted on the vac.

Handle (Collapsible)

A comfortable way to transport your vac.

Exhaust air collector

If you want to get rid of the vacuumed air - just use the exhaust air collector. Can also be used to blow some dirt out of hard-to-reach places.
