

BARRACUDA

LTV Series - Hot Water, Electric, Diesel Heated, Direct Drive Pressure Washer

The LTV Series combines the cleaning power of high pressure with the grease cutting effectiveness of hot water, wet steam, or downstream soap. This machine offers great portability with the included wheel kit. Choose either the 115V/15amp or 208/230V/24amp power supply. This compact pressure washer is built to last with an industrial duty motor and a triplex, ceramic plunger pump. These heavy duty pumps outperform axial and wobble plate pumps and are designed for a long life of industrial duty use.

Standard Features

- High efficiency heating system will quickly heat water up to 250°F wet steam
- Dual voltage on the 208/230v model allows you to operate with either 208V or 230V with the flip of a switch
- Stainless steel insulated coil enclosure
- Rugged Powder Coated Steel frame with balanced lifting point
- 4 large tires for easy portability
- Integrated hose/ electrical cord storage hooks
- Includes 35' GFCI cord with plug
- Large 8 gallon diesel tank to supply diesel burner
- Adjustable thermostat, pressure relief valve, Safety bust disk included for operator safety
- Integrated gun/ wand holder
- Dimensions: 44"L x 28"W x 45"H

Standard Accessories

- 50' high pressure hose
- Gun and wand assembly
- QC spray nozzles

Available Options

- Downstream soap injection with QC soap nozzle
- Hour meter
