Commercial Upright Vacuums

Featuring dual motors to provide superior cleaning

Dual motor vacuums with maximum power, superior maneuverability and quiet operation.

Kärcher's CV family of dual-motor upright vacuums are ergonomically designed to be simultaneously powerful, lightweight and easy to maneuver. Our 1,000 watt vacuum motors pick up more dirt in a single pass than their comparable single-motor counterparts while our patented filtration system filters out particulates and allergens down to 0.3 microns; the CV family of commercial upright vacuums provide the power you need to clean in one of the lightest designs available on the market today.

Super Light: Weighs just 17 pounds, with the cable included!

Filter Bag Full Indicator: Alerts the operator when air flow is restricted due to a full filter bag, clogged filters or other blockage

Detachable hose allows quick and easy detail vacuuming.

Adjustable brush head for maximum cleaning effectiveness

Flip top access for easy bag change.

Simple, no tool brush removal.

CV 300

CV 380

Ergonomic carrying handle provides easy transport and also allows the vacuum to be used without the powerhead

Removable body to easily convert to a canister vacuum

Electronic brush control monitors the status of the brush, communicating the status through the lights on top of the power head

Rubberized wheels allow safe vacuuming on carpeting and hard floors
