WHY CHOOSE THE PC?

Like the PG models, the PC cold-water pressure washers offer an array of options and features for cleaning multiple surfaces indoors and outdoors, but utilize direct-drive instead of belt-drive pumps. Each comes equipped with 50' of Landa Kärcher Group's durable wire-braid high-pressure hose, and a thermal pump protector to prevent overheating while in bypass mode. Shock-absorbing rubber feet reduce vibration and prevent movement during operation, and handles on the front and back make these machines a breeze to load and unload.
