

## The P Series of Glazers™

- P 1600 RPM Glazer
- P 2000 RPM Glazer

The ultimate value and choice  
in high-speed burnishing power.

### The Right Combination

Tornado's® P Series of High-Speed electric burnishers are expertly balanced for ideal pad-to-floor pressure and sustained RPMs. Unlike other burnishers, you get total pad-to-floor contact, which means greater efficiency, speed and overall cost-savings. The P Series of High Speed Glazers™ provide excellence in design, operator comfort, and unsurpassed burnishing performance.

### Precision Balance and Simple Maneuverability

The Tornado® P Series of commercial high speed Glazers™ offer a specially patented design combined with precision balanced weight distribution which eliminates the need for a compensating center or front mount caster. This unique design provides full pad-to-floor contact, resulting in a smooth, even gloss. Tornado's Glazers™ provide exceptionally smooth operation with a flexible, self-adjusting pad driver that burnish uneven surface areas easily and efficiently.

### Durability and Value

The P Series features a unique, one piece rotationally molded housing designed to absorb the torque and vibration normally felt when operating a high speed. They also boast a one piece all metal tube and switch housing which improves operator control and safety. Ruggedly built for years of trouble-free operation, they make it easy to restore and maintain hard floor surfaces.

With a 20" burnishing path, flex pad holder, lock-in retainer, 1.5 HP motor, and Tornado's® one piece all metal tube and switch housing, the P Series of High-Speed Glazer's™ can handle the most demanding of floor care needs. At unmatched price points, this is a must-have for any cleaning professional.

# The P Series of Glazers™. The ultimate value and choice in high-speed burnishing power.

## Key Features

- Heavy-duty 1.5 hp motor with low start up and operating amp draw
- Patented rotational molded housing absorbs vibration and minimizes torque for easy operation and control
- Floating handle provides great maneuverability with no “flutter” or pull
- Optimal head weight for maximized pad-to-floor contact, providing the best shine possible
- Low profile for easy maneuverability
- Flex pad holder with lock-in retainer

## Versatility

The Tornado® P Series of Glazers™ provides easy operation, versatility, innovative features, and durable design for use in many different environments including:

- Hospitals and Healthcare Facilities
- Schools and Universities
- Hotels and Resorts
- Restaurants
- Commercial Office Buildings
- Retail Stores and Shopping Malls
- Industrial Facilities, large and small

**Smooth Operation!**

**P 1600 RPM GLAZER  
P 2000 RPM GLAZER**

### Patented Design

Keeps motor running cool, and provides a longer life.

### Designed to protect

Easy access to motor and internal components. The completely enclosed motor means lasting durability and quick access for maintenance purposes.

### All Metal Handle

Floating handle provides great maneuverability with no “flutter” or pull.

### Conventional Burnishers

Edge of Pad Cuts the Floor Finish at High Spots

Limits the Burnishing Path to a small section of the pad
