## Customized, Trailer-Mounted Hot Water Pressure Washer System

- Single or Tandem Axle
- Customized Hot-Water Pressure Washer
- 200 or 330 Gallon Water Tank
- Many Accessories

■ Wheel and axle assembly features an **Industrial Undercarriage** leaf-spring suspension of up to 3,500 lbs. per axle and 14-inch, white spoke wheels (shown with optional chrome wheels and fenders).

■ 330-gallon white **High-Density Polyethylene Water Tank** (200-gallon for TR-3500 model) comes standard with the trailer and features a 12-inch access port plus a 1½-inch drain valve, ¾-inch float valve and a 50-mesh inlet strainer.

■ Made of durable 14 gauge steel, **Optional Tool Box and Extra Fuel Tank** doubles as a generous tool storage with safety hold-open lid, and a 50-gallon tank for extra fuel; includes standard 2¼-inch gas tank filler opening; slosh-proof baffled reservoir; gasoline outlet is above gas line; 2-inch NPT opening for a transfer pump (not included) to pump fuel to either the equipment or other vehicles.

### **TR-6000 Tandem Axle Trailer**

Shown with pressure washer and options

■ Dual-axle or single-axle trailers come with standard **Electric Brakes with Break Away Kit** or optional hydraulic breaks.

■ Two 3-way ball valves make it easy to **Switch Water Sources** from the holding tank to direct water feed from a hose faucet.

■ Durable **Steel Cage** holds the water tank and features a pressure washer wand holder for quick and ready cleaning accessibility.

■ Made of extra-durable 2-by-3 inch structural tubing and covered with a powder-coated epoxy black finish for weather protection; this **Heavy-Duty Chassis** features lighted license plate holder and recessed tail lights; all electrical wiring is recessed within the tubular frame.

■ The **Optional Hose Reel (not shown)** holds up to 150 ft. of hose and quick connects to chassis.

■ Made to handle up to 1,500 lbs (1,000 lbs on the TR-3500), the swivel jack **Trailer Tongue Assembly**, with a 2-inch or 2 ½-inch ball coupler for quick and easy hook up of the trailer. Dual ¾-inch chains are also included for additional safety.

## WHY CHOOSE THE TR TRAILER?

We have made customizing a trailer-mounted wash system for on-site cleaning as easy as 1-2-3.

**Step 1:** Choose from two rugged trailer configurations—the dual-axle TR-6000 or the single-axle TR-3500.

**Step 2:** Select from five series of portable, self-contained, industrial-grade, hot-water pressure washers, any of which can be mounted on either trailer (except the SLT).

**Step 3:** Add any of our many options and accessories, such as hose reels, chrome coverings, etc., to enhance the performance.

Both trailers are made of extra-rugged 2-by-3 inch structural tubing. The wheel and axle assembly feature leaf-spring suspension of up to 3,500 lbs. per axle and 14-inch, white spoke wheels. A powder-coated epoxy finish gives the entire package added weather protection.
